## The Eurofins Value

- Competently trained and experienced staff
- Operational excellence
- Customer-centric culture
- Flexible and agile
  - Customizable solutions
  - Easily accommodate changes
- Established provider

Eurofins is a premier global partner for biopharmaceutical outsourcing, offering comprehensive, high-quality services across the entire drug development lifecycle, with global reach and turnkey solutions.

The companies of **Eurofins Clinical Trial Solutions** provide a seamless solutions-based approach in support of phase I to IV clinical trials with a unique analytical testing portfolio for bioanalytical services, central laboratory services, and complex biomarker assay development and testing services for drug and vaccine development. We are now expanding our service offering to include packaging and distribution of IMPs in support of clinical trials.

# Making the Complex Simple

## Newly Built US Facility Capabilities and Capacity

### Packaging

- Primary packaging suites for oral dose products
- Secondary packaging suites for all dosage forms for labeling, assembly & kitting to include cold chain environments.

### Storage

- +1400 pallet spaces for CRT [15°C – 25°C] storage
- +400 pallet/shelf spaces for 2-8°C storage
- +400 pallet/shelf spaces for -20°C storage
- +200 cubic feet of -80°C storage
- +200 pallet/shelf spaces for return storage
- LN2 storage in support of cell & gene therapy with capacity up to 800,000 2mL vials
- 24 CRT pallet spaces controlled substance II storage
- 32 CRT pallet spaces controlled substance III-V storage

### Additional Services

- Clinical label generation on site
- Accountability and reconciliation of clinical trial supplies
- Returns and destruction coordination
- Drug & ancillary supply chain management

### Global Distribution

- End-to-end supply chain management
- Collaboration with global network of couriers
- Global depot network
- Reverse logistics (returns & destructions)
- Temperature controlled shipments: CRT [20-25 °C], 2-8°C, -20°C, -80°C, LN2 [-196°C]

Let's build a smarter clinical supply strategy together.
